UNDERSTAND AND **VISUALIZE YOUR DATA**

ATHLETE REPORT CARD

Monitor your athletes with SMARTSPEED Cloud's Athlete Report Card to understand how your players are tracking over time on variables that are most important to you.
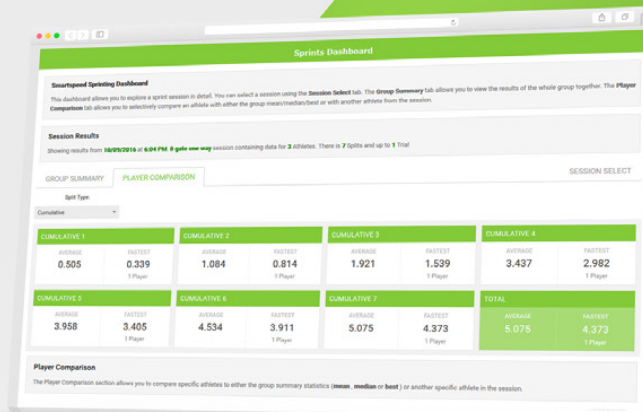

- Define variables that are important to you across different protocol types

- Create reusable templates with different variable combinations

- View personal or team bests, averages and long term trends for each variable

- Understand where your players fit in the team with the player comparison charts

UNDERSTAND AND VISUALIZE YOUR DATA

SPRINTS SESSION DASHBOARD

Visualize data from your sprinting sessions with SMARTSPEED Cloud's online Sprints Session Dashboard to compare and analyze athlete results individually or as a group.

- ⊕ View single or multiple sessions in one interactive dashboard

- ⊕ Easily see who was the quickest and in which splits

- ⊕ Compare each athlete in detail to team averages, bests or other athletes

UNDERSTAND AND VISUALIZE YOUR DATA

JUMPING SESSION DASHBOARD

Now you can identify your athlete's rank based on customizable jumping metrics using SMARTSPEED Cloud's Jumping Session Dashboard.

- ⊕ View key jumping metrics that are important to you from multiple sessions

- ⊕ Easily review who performed the best single jump, set average or session average

- ⊕ Compare each athlete to team averages, bests or other athletes

ALL NEW DASHBOARDS

Take advantage of all new dashboards that are released during your subscription for even more training data visualization options.
